Tells of the Remarkable Cure that Dr. Williams' Pink Pills Wrought in Her Case—And Indispose Four Operations Without Help

When women approach that critical time of their lives known as the "menstrual period," they are often troubled by a variety of ailments, such as headache, dizziness, and general weakness. In the case of Mrs. J. P. McIntosh, these symptoms were so severe that she was forced to undergo four operations without any help from Dr. Williams' Pink Pills.

Mrs. Margaret Wood, of Southfield, N. H., says: "Some years ago I became afflicted with the troubles of the menstrual period, and my health was so poor that I was forced to undergo four operations without any help from Dr. Williams' Pink Pills."

After the fourth operation, I was so weak that I could not get up. I was then told to take Dr. Williams' Pink Pills, and after a few days I was able to get up and walk. I was then told to take Dr. Williams' Pink Pills, and after a few days I was able to get up and walk.

## Will Port Hope be Isolated

Probability That the Grand Trunk  
Will Not Stop There

The Guide says to Port Hope is to be shut-out? The question is a pertinent one.

The Board of Trade has been confirmed to attention chiefly to provincial matters, and it is not likely that policy shall be retained in that connection, a relative of attention.

Business are current that the G. T. R. intends withdrawing the "port" from the Grand Trunk line near Lindsay. Although Port Hope is a junction point, it must be borne in mind that there are other junctions on the main line where the G. T. R. does not call, and there is a possibility that the report may be authentic. The Board of Trade has written the headquarters for official information on the subject, on receipt of which the decision will be made, and the decision is not likely to be delayed.
